

Amlakie Abebaw

Full Stack Developer

✉ amlakieab23@gmail.com ☎ +251 912436573  LinkedIn  Portfolio  GitHub

SUMMARY

Dedicated and versatile Full-Stack Developer with 3+ years of experience in building dynamic web and mobile applications. Expert in React.js, Next.js, Node.js, Spring Boot and MySQL Database.

Passionate about creating secure, user-friendly solutions that solve real-world problems. Proven track record of delivering 20+ projects with a focus on seamless UI/UX and efficient backend architecture.

PROFESSIONAL EXPERIENCE

Cyber Security Trainee

08/2025 – Present

Information Network Security Administration (INSA)

Addis Ababa

- Trained in network security, threat detection, and ethical hacking principles through hands-on lab simulations.
- Engineered a Web Application Firewall (WAF) to detect, block, and mitigate real-time web application security threats, including OWASP Top 10 vulnerabilities.

Full-Stack Developer

03/2025 – 07/2025

Information Network Security Administration (INSA)

Addis Ababa

- Designed and developed core enterprise modules, including a Transport Management System to efficiently handle vehicle routing, driver assignments, and fleet logistics.
- Built and maintained full-stack web applications using Spring Boot, Next.js, and MySQL, architecting RESTful APIs for seamless frontend-backend integration.
- Collaborated across the full software development lifecycle, contributing to database design, debugging, testing, and deployment following industry best practices.

Freelance Full-Stack Developer

01/2026 – Present

Self-Employed

Addis Ababa

- Developed responsive full-stack applications with secure authentication, database integration, and user-friendly interfaces.
- Successfully delivered 10+ software projects, including Hospital Management Systems, House Rental Management Systems (HRMS), Gaming System, Gibi Gubaye Management System (GGMS), Cafeteria Management System (CMS), eCommerce platforms, and other custom web applications.

EDUCATION

Bachelor of Software Engineering

05/2022 – 06/2026

Mizan Tepi University

Tepi, Ethiopia

- **CGPA: 3.96**
- **Key coursework:** Networking, Web Development (Server-Side Rendering), Mobile App Development, Operating Systems, and Cyber security.
- **Exit Exam: 80% Passed**

SKILLS

Languages

JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Backend

Node.js, Express.js, FastAPI, Django, Spring Boot

Tools & DevOps

Git, GitHub, Docker, Postman, Vercel, Render

Frontend

React.js, Next.js, Tailwind CSS, Redux Toolkit, Framer Motion

Databases

MongoDB, PostgreSQL, MySQL

Specializations

RESTful APIs, OAuth, Responsive Design

CERTIFICATES

Udacity Programing Fundamentals 2025	Udacity Android Development Fundamentals 2025
Udacity Data Analysis Fundamentals 2025	Udacity Artefcial Intelegency Fundamentals 2025
INSA Cybersecurity 2025	Freecodecump Responsive Web Design
Freecodecump JavaScript & Data Structures	FreecodeCump Frontend Librarie

AWARDS

Academic Gold Medal <i>Mizan Tepi University</i> Awarded for achieving top academic honors in the College of Computing and Informatics graduating class and demonstrating exceptional academic performance throughout the program.	20/06/2026

PROJECTS

House Rental Management Platform Description: Programmed a comprehensive management dashboard tailored for real estate administration. Key Feature: Simplifies tenant applications, rental property tracking, and digital lease agreements. Technologies Used: Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js
Cafteria Management System Description: Created a unified operational ecosystem to digitize and manage daily cafeteria workflows. Key Feature: Provides automated modules for custom menu planning, inventory tracking, and order processing. Technologies Used: Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js
Onlin Gaming Platform Description: Designed and deployed a dynamic multiplayer online bingo gaming platform. Key Feature: Features real-time state management to support concurrent user sessions and interaction. Technologies Used: Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js, Web Socket
Gibi Gubaye Management System Description: Engineered a specialized management platform tailored for campus fellowship (Gibi Gubaye) administration and community operations. Key Feature: Streamlines member registration, fellowship department management, event coordination, and attendance tracking. Technologies Used: Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js
