

Amlakie Abebaw

Full Stack Developer

✉ amlakieab23@gmail.com ☎ +251 912436573 📍 Addis Ababa, Ethiopia 🌐 LinkedIn 🔗 Portfolio

SUMMARY

Dedicated and versatile Full-Stack Developer with 3+ years of experience in building dynamic web and mobile applications. Expert in React.js, Next.js, Node.js, Spring Boot and MySQL Database.

Passionate about creating secure, user-friendly solutions that solve real-world problems. Proven track record of delivering 20+ projects with a focus on seamless UI/UX and efficient backend architecture.

PROFESSIONAL EXPERIENCE

Cyber Security Trainee

Information Network Security Administration (INSA)

08/2025 – Present

Addis Ababa

- Trained in network security, threat detection, and ethical hacking principles through hands-on lab simulations.
- Engineered a Web Application Firewall (WAF) to detect, block, and mitigate real-time web application security threats, including OWASP Top 10 vulnerabilities.

Full-Stack Developer Intern

Information Network Security Administration (INSA)

03/2025 – 07/2025

Addis Ababa

- Developed and maintained full-stack web applications using Spring Boot, Next.js, and MySQL Database.
- Built and integrated RESTful APIs for frontend and backend communication.
- Collaborated with team members to design, develop, test, and deploy enterprise-level applications.
- Participated in database design, debugging, and software maintenance while following software development best practices.

Freelance Full-Stack Developer

Self-Employed

01/2026 – Present

Addis Ababa

- Developed responsive full-stack applications with secure authentication, database integration, and user-friendly interfaces.
- Successfully delivered 10+ software projects, including Hospital Management Systems, House Rental Management Systems (HRMS), Gaming System, Gibi Gubaye Management System (GGMS), Cafeteria Management System (CMS), eCommerce platforms, and other custom web applications.

EDUCATION

Bachelor of Software Engineering

Mizan Tepi University

05/2022 – 06/2026

Tepi, Ethiopia

- **CGPA: 3.96**
- **Key coursework:** Networking, Web Development (Server-Side Rendering), Mobile App Development, Operating Systems, and Cyber security.
- **Exit Exam: 80% Passed**

SKILLS

Languages

JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Backend

Node.js, Express.js, FastAPI, Django, Spring Boot

Tools & DevOps

Git, GitHub, Docker, Postman, Vercel, Render

Frontend

React.js, Next.js, Tailwind CSS, Redux Toolkit, Framer Motion

Databases

MongoDB, PostgreSQL, MySQL

Specializations

RESTful APIs, OAuth, Responsive Design

CERTIFICATES

Udacity

Programing Fundamentals | 2025

Udacity

Data Analysis Fundamentals | 2025

INSA

Cybersecurity | 2025

Freecodecump

JavaScript & Data Structures

Udacity

Android Development Fundamentals | 2025

Udacity

Artefcial Intelegency Fundamentals | 2025

AWARDS

Academic Gold Medal

20/06/2026

Mizan Tepi University

- Awarded for achieving the highest cumulative GPA (3.96 / 4.0) from College of Computing and Informatics in the graduating class and demonstrating exceptional academic performance throughout the program.

PROJECTS

E-Commerce Platform

- **Description:** Developed an Amazon-like shopping platform to streamline online retail experiences.
- **Key Feature:** Features an immersive AR product preview capability for enhanced user interaction.
- **Technologies Used:** Next.js, TypeScript, Node.js, MongoDB

Fleet & Transport Management System

- **Description:** Designed and developed a comprehensive web-based transportation asset, workforce coordination, and logistics management platform to modernize operations for the (INSA).
- **Key Features:** Implemented real-time vehicle monitoring, a 3 phase automated inspection and preventive maintenance tracker, route optimization maps, morning/night odometer attendance logs, and so.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, Spring Boot, MySQL, Web Socket, Google Maps APIs

House Rental Management Platform

- **Description:** Programmed a comprehensive management dashboard tailored for real estate administration.
- **Key Feature:** Simplifies tenant applications, rental property tracking, and digital lease agreements.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js

Cafteria Management System

- **Description:** Created a unified operational ecosystem to digitize and manage daily cafeteria workflows.
- **Key Feature:** Provides automated modules for custom menu planning, inventory tracking, and order processing.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js

Onlin Gaming Platform

- **Description:** Designed and deployed a dynamic multiplayer online bingo gaming platform.
- **Key Feature:** Features real-time state management to support concurrent user sessions and interaction.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js, Web Socket

Web Application Firewall (WAF)

- **Description:** Architected a robust security dashboard dedicated to managing web application protection.
- **Key Feature:** Features real-time threat detection capabilities along with active automated security response systems.
- **Technologies Used:** React, TypeScript, Tailwind CSS, PostgreSQL, Django

Gibi Gubaye Management System

- **Description:** Engineered a specialized management platform tailored for campus fellowship (Gibi Gubaye) administration and community operations.
- **Key Feature:** Streamlines member registration, fellowship department management, event coordination, and attendance tracking.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js
